Inform, Educate, Entertain and Engage

Hydravision AiO is the all in one solution for creating and running your own unique on-screen digital channel for enhancing communications and delivering eye catching infotainment.

Hydravision AiO is available on a wide range of hardware options ranging from a small form factor PC to a high end digital engine.

Hydravision AiO is straight out of the box and ready to use. It supports all Windows media file formats and allows you to create your own on-screen messages or play back web based content.

Hydravision AiO can be operated stand alone or can be networked and controlled remotely from a central server. There is no limit to the number of Hydravision players that you can connect to your network.

Hydravision AiO additional services

Full on site installation and configuration service; full helpdesk and remote diagnostic support; optional training; extended hardware warranty; content creation service.

For a list of additional services and support please visit us at www.hydravision.tv for further details.
